

MAXQDAによる 書誌情報のインポートと取り扱い

SASO Tomoko - How to import and handle bibliographic data with MAXQDA

このセッションでは

- 書誌情報と全文のPDFをMAXQDAにインポートする仕組みと手順
 - RIS: Reference Information System Format
 - 文献検索→文献管理ソフト→MAXQDA
 - MAXQDAでの取り扱い

RIS: Research Information System Format

- 標準化されたタグフォーマット

TY - JOUR	タイプ – JOUR (Journal), DBASE (Online Database), BOOK (書籍) , EBOOK (Electronic Book)など
AU - Shannon, Claude E.	著者名
PY - 1948	発行年
TI - A Mathematical Theory of Communication	タイトル
T2 - Bell System Technical Journal	タイトル2 – もしあればジャーナルタイトル
VL - 27	ボリュームナンバー

[https://en.wikipedia.org/wiki/RIS_\(file_format\)](https://en.wikipedia.org/wiki/RIS_(file_format))

文献検索 → 文献管理ソフト → MAXQDA

1. データベースで文献を検索

2. 文献管理ソフトで収集

Citavi EndNote Mendeley Zotero; または RIS

3. 文献管理ソフトからエクスポート (RIS, PDF)

4. MAXQDAへインポート

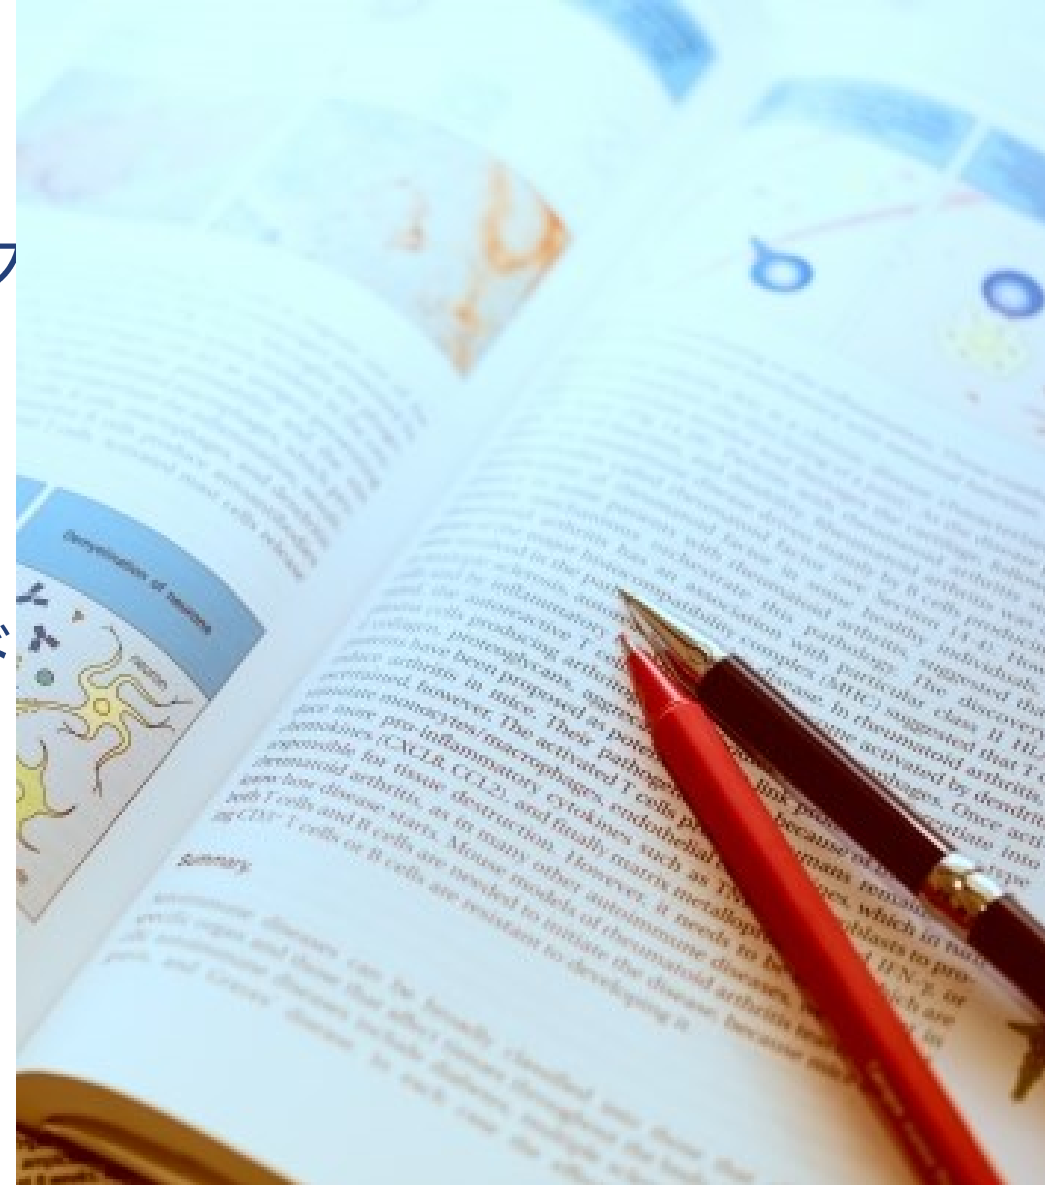

[インポート]

→ [参考文献の管理データ]

MAXQDAでの取り扱い

- 文書 - 書誌情報と全文PDF; 相互にリンク
- 文書変数 - TY, AU, TI, ID, PY
- コード
 - プレコーディング - RISタグ、キーワード
- PDFに加えたハイライトとノート
 - ハイライト → コード
 - ノート → メモ

The screenshot displays the MAXQDA interface with three main panels:

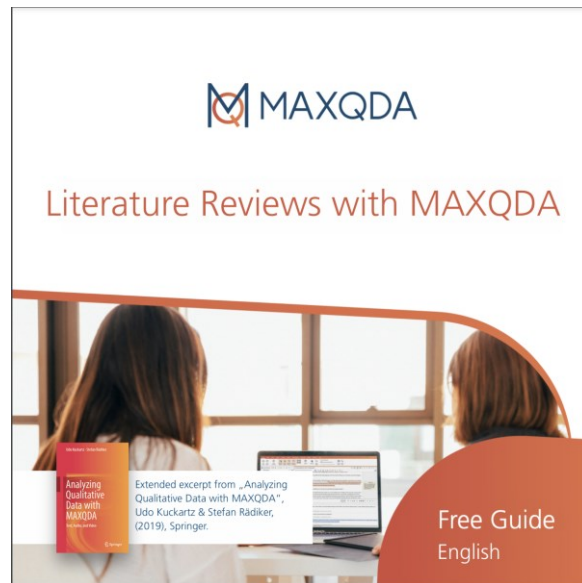

- Document System (文書システム):** Shows a list of documents. A red box highlights the document "Creswell, John W. - 2022" (19 paragraphs). A blue box highlights a PDF file "Creswell - 2022 - How to Expand the Reach of Mixed Metho..." (7 paragraphs) under the "References > Attachments" folder.
- Code System (コードシステム):** Shows a list of codes. A red box highlights the "References" (参考文献) code (98 codes). A blue box highlights the "Keywords" (キーワード) code (0 codes). A text box labeled "プレコーディング RISタグ・キーワード" (Pre-coding RIS tags/Keywords) is positioned over the code list.
- Document Viewer (文書ブラウザ):** Shows the content of the selected document. The text includes:
 - 1 JOUR
 - 2 How to Expand the Reach of Mixed Methods in Asia
 - 3 Creswell, John W.
 - 4 2022
 - 5 2022///
 - 6 1
 - 7 1
 - 8 32
 - 9 41
 - 10 [Creswell - 2022 - How to Expand the Reach of Mixed Methods in Asia.pdf](#)
 - 11 Mixed methods research continues to expand around the world, especially in Asian countries. In this article, I rely on my experiences working in the field of mixed methods for thirty-five years and watching its development and the new initiatives that countries have put into place. This paper builds on my keynote presentations at the Japanese Society for Mixed Methods Research given in October 2021. My overall purpose of this article is to encourage the continued expansion of mixed methods among the Asian countries. I first trace the historical development of mixed methods research, identify seven types of expansion activities that are both underway and can occur in the future in Asia (conducting webinars, increased international involvement, new book translations, support for Asian-specific journals, expanded training for students and visiting scholars, and international collaborations), and end with challenges to be faced by the Asian and international countries.
 - 12 https://doi.org/10.51108/ammr.1.1_32
 - 13 J-Stage
 - 14 Asian expansion
 - 15 current and future initiatives
 - 16 development of mixed methods
 - 17 Mixed methods research
 - 18 How to Expand the Reach of Mixed Methods in Asia

Annotations and text boxes provide additional context:

- A red text box on the right says: "参考文献 書誌情報が文書としてインポートされる" (References: Bibliographic information is imported as a document).
- A blue text box on the right says: "参考文献>添付ファイル 全文PDF: 書誌情報の文書内からリンク" (References > Attachments: Full-text PDF: Link from document to bibliographic information).
