17 **Recreation:**
 18 On a scale of 1-10, how satisfied are you with recreation
 19 and leisure in your life?
 20 Answer: _9_
 21 Please list recreation/leisure events you participate in...
 22 I dance my ass off every week and I play basketball
 whenever possible. I try and get out and do stuff whenever
 possible.
 23 I am relatively satisfied with my recreational/leisure
 activities. I am one of those people who feel guilty if I sit
 inside and watch TV on a beautiful day. I feel like I should
 be at the beach or at the park playing ball, or just outside
 doing something. But I feel I get a good amount of
 exercise without actually going to the gym or whatever.
 Every week I go to 2 clubs or so, dancing into the wee
 hours of the morning. I know breathing in all that smoke
 doesn't do too much for me but damn I sure do sweat a
 lot...gotta be doing something right.

23 **Relationships:**
 24 I would just like to talk about the relationship my girlfriend
 and I have right now. I haven't been this happy in a long
 time due to a girlfriend. I love this girl, I know I do and I
 know she loves me back. It is weird that at 19 years old I
 think I have found the person I want to spend the rest of
 my life with. Everything just seems so great. We can talk
 to each other about everything. I have been welcomed
 into her family as another son or brother. But even in all of
 our greatness we have our problems often. I wish more than
 anything that they would just go away sometimes. But
 then I would have to think that this relationship would be
 extremely boring if it were all happy happy joy joy. What I
 know right now about this girl is that she is the most
 important person in my life and I thank God that he has
 bestowed someone of her caliber upon me.

25 **SECTION 2 - WORD TO STORY PROMPTS...**

26 **FAILURE:**
 27 My most recent recollection of major failure was last year,
 1998, when I failed Spanish, the last Spanish class I would
 ever have to take. I can attribute it to a lot of things such
 as drug use and what not, but more than anything it was
 my fault. I'm the one who failed the class, who was lazy,
 who didn't study hard, who screwed around too much. I
 could have succeeded but I failed and I can blame it on no
 one but myself.

Notes: Session #5-8 (Methods)

I am relatively happy with my current health. I feel that I have a
 decent looking physique but of course I would like it enhanced. I
 see all these guys in underwear ads and in clubs with these
 pumped up bodies and all I can think is "Damn I wish I looked like
 that!" If anything to make both myself and my girlfriend happier.
 But improving my health is something I know I can achieve. It is
 very easy to eat better and to work out more. You just have to do it
 and that's the hardest part of it all.
