## Working Student Quality Assurance / Software Testing (m/f/x), 20 hrs.

We are **VERBI Software GmbH** – the company behind **MAXQDA** – the #1 software for qualitative and mixed methods data analysis. We provide researchers, universities, and companies with an innovative and intuitive tool so they can accomplish great things. Professional service and a close connection to our community has paid off: since our founding in 1989 we have grown steadily and sustainably as a family company. In addition to MAXQDA, we are developing a growing family of **cloud and AI products**.

### *Your tasks:*

- Execute pre-defined test cases based on functional requirements and design specifications,
- Perform thorough manual testing, identifying and documenting the defects, using bug tracking system, Jira and test case management tool, Test Rail,
- Assist in the development of automated tests (basic scripting - training provided),
- Collaborate with developers to reproduce and resolve bugs,
- Learn and apply software testing methodologies and best practices.

### *What we are looking for:*

- Enrolled student – Your field of study is not relevant: We are looking for people with a positive outlook on life, a creative mindset, who are strong team players and work independently,
- Basic computer skills and proficiency in using web browsers and operating systems along with basic understanding of software testing principles,
- Strong attention to detail and a passion for quality, along with excellent communication and interpersonal skills,
- You have solid written and spoken knowledge of English, as well as a basic understanding of German,

You do not have to match our job profile 100%. What is more important is that you fit in with us as a company, and that you have a desire to contribute your ideas and develop as a professional.

### *Your Benefits:*

- Modern office near Berlin central station
- Hybrid working/ Home Office
- Subsidy for Urban Sports Membership
- Participation in Corporate Benefits Program & WeRoad Discounts
